

# PHOENIX WELDING

Premier Fabrication and Field Services

## About Us:

Phoenix Welding has been incorporated since 1985 and our key personnel and management team have been in the mechanical trades since the early 1980's. We are proud to be a full service ASME Industrial Mechanical Contracting Company. Our primary business is industrial and process piping and tank repairs for a variety of industries including but not limited to: petroleum distribution, power generating industries, pulp & paper manufacturing as well as chemical and pharmaceutical firms. As a company, we have over 35 years of experience and history of quality work. We look forward to helping you with your next project!
